 - Double Major completed in 3 years
 - Graduated Magna Cum Laude

Accelerated Web Development Program
LearningFuze Code School, 2018

TECHNOLOGIES

HTML5	CSS / SCSS
ES6	REACT / REDUX
TYPESCRIPT	VUE.JS
PHP7	NODE.JS
SQL / PSQL	JQUERY
UBUNTU	VIRTUALBOX
JEST	LARAVEL
AGILE	AJAX / AXIOS

PERSONAL INTERESTS

COOKING	TRAVEL
LANGUAGES	BACKPACKING
CONSERVATION	READING

SAMANTHA SKARVAN

+1 (949).466.3902 || samskarvan@gmail.com

Collaborative software engineer with excellent time management and communication skills. I am a lifelong learner who seeks growth through both personal and professional challenges.

RELEVANT WORK EXPERIENCE

Software Developer, Verys LLC June 2018 - Present
Irvine, CA

- maintained site and developed new features in **Vue.js** for and **Laravel Blade** for **elderscrolls.bethesda.net**
- refactored entirety of **fallout.bethesda.net** from **handlebars.js** and **vanilla JavaScript** to **React.js**
- used Contentful SDK and migration scripts to update content models
- developed new features for site-agnostic backend in **PHP7 / Laravel**
- collaborated with designers, project managers and engineers in different timezones
- utilized Kanban Agile methodologies
- became primary developer for both sites toward end of project
- refactored internal tool for client from C++ to **Node.js**
- created new **RESTful** API endpoints
- worked with client to restructure **PostgreSQL** database models
- created test suites for new endpoints using **Jest** framework
- trained new team members

APPLICATIONS DEVELOPED

Student Grade Table – Content Management System

- Data management system which allows users to create, read update and delete grade and course information for students
- Used **Bootstrap** styling to create responsive table layout
- Made **RESTful** API calls using **AJAX** to carry out CRUD tasks

Laguna Matata - Hackathon

- Beach Day planning application which allows users to find beaches, local weather and restaurants
- Integrated third-party APIs from Yelp, Google Maps and Google Places
